

Timer code-

```
private void timer1_Tick(object sender, EventArgs e)
{
    second = second + 1;
    if (second >= 2)
    {
        textBox2.Text = DateTime.Now.ToString();
    }
}
```

Customer Side Login:-

```
btnRegister.setOnClickListener(new OnClickListener()
{
    @Override
    public void onClick(View v)
    {
        tbl=etxTableNumber.getText().toString();
        UserName=etxUserName.getText().toString();
        Contact=etxContact.getText().toString();

        if(macid.equals("100")==true)
        {
            if(etxContact.length()==10==true)
            {
                int ii=0;
                new Remote_Data(getApplicationContext(),etxUserName,etxContact).execute("");
                Intent i=new Intent(MainActivity.this,homepanel.class);
                startActivity(i);
            }
            else
            {
                Toast.makeText(MainActivity.this,"NO", Toast.LENGTH_LONG).show();
            }
        }
    }
}
```
