```
   string query = "update digidatabase.itemtable set item_name='"
+ txtItemName.Text + "',item_price=" + txtItemPrice.Text + ",item_discription='"
+ txtItemDesc.Text + "',item_status='" + txtItemStatus.Text +
"' where item_id=" + itemId.Text + "";

           MySqlCommand cmd = new MySqlCommand();
           cmd.CommandText = query;
            cmd.Connection = connection;
           cmd.ExecuteNonQuery();
           connection.Close();
           clear();
           MessageBox.Show("This Menu updated....");
           autoCatid();
         }
        catch (Exception e3)
        {
           MessageBox.Show("error");
           connection.Close();
        }
      }
```

Delete Menu:-

```
      private void delete_Click(object sender, EventArgs e)
      {
        try
        {
           connection.Open();
           string query = "delete  from itemtable where item_id=" + itemId.Text + "";

           MySqlCommand cmd = new MySqlCommand(query, connection);
           cmd.ExecuteNonQuery();
           connection.Close();
           clear();
           MessageBox.Show("This Menu Deleted....");
           autoCatid();
        }
       }
```
